

**JOB ADVERTISEMENT**  
**ELECTRICAL TECHNICIAN**  
**ASSISTANT**  
**SISHEN SOLAR FACILITY**

Firefly Investments 238 (Pty) Ltd is currently looking for 3 Electrical Technician Assistants based in the Northern Cape

**Mission:** Assisting the Electrical Technicians with carrying out Electrical Functions in the Sishen Solar Facility (Preventive and Corrective Maintenance).

**Job Description**

**Quality, Health & Safety and Environment**

- Comply with the Health, Safety and Environment regulations.
- Put into practice every safety measure prescribed by the regulations in the Solar Facility operation and maintenance works.
- Know and put into practice the Firefly Health, Safety and Quality procedures.
- Make practical and effective use of all safety equipment or tools provided by Firefly.

**Maintenance**

Assist Technicians in achieving the following:

- Achieve optimum performance and maximum availability and efficiency of the Solar Facility, ensuring compliance with the applicable regulation as well as the Firefly Safety, Quality and Environment regulations.
- Safely perform every necessary action on Operation and Maintenance to keep the facility in operating status, troubleshooting, corrective and preventive maintenances and attend to every incident that could affect the Solar Facility's operation.
- Work closely with CECOER to respond to faults on the Solar Facility.
- Follow any reasonable procedures and instructions approved by Firefly.
- Immaculate conditions of the work and warehousing areas, including waste retrieval and the authorised toxic waste storage.
- Ensure complete confidentiality regarding Firefly documents.
- Perform tests, proofs and checks when necessary and commissioning the repaired equipment and/or systems.
- Complete the work orders (WO's) timeously with the appropriate quality, ensuring complying with the collect procedures established by Firefly.
- Provide Firefly Management with detailed reporting on findings and procedures when responding to faults.
- Safeguard and manage the company's assets (tools and vehicles) in the most efficient manner.
- Communicate with Management in a timeous manner on any shortages of spare parts.

**Job Requirements**

- Grade 12 - National Senior Certificate.
- Should be physically fit, be able to carry heavy equipment and work in adverse weather conditions.
- Needs to be able to work on uneven surfaces and ladders.
- Should have a valid driver's licence

**The position will require the successful candidate to:**

- Work from Mondays to Fridays.
- Work sunlight hours, alternating from commencing duties at 05:30 am to 14:30pm and at 10:00 am to 19:00 pm in summer, and from 08:00 am to 17:00 pm in winter.
- Standby on an alternating basis during the week as well as on some weekends.
- Must be prepared to work overtime from time to time.
- Languages/Level: English and Afrikaans (Tswana advantageous)

**Closing Date: Friday 15th December 2017**
