South Africa Electrician Mamatwan Mine, Northern Cape Ref. 779836

Here you will be responsible for the timely installation, repair and maintenance of equipment to ensure that mining activities are executed in a safe manner, and for operating equipment and testing all working parts in the functional area to ensure proper utilisation. You will interpret and coordinate pre-work with regards to repairs, planned and predictive maintenance, access any area safely to perform necessary maintenance on machines or equipment and perform safety inspections of equipment and assess risks on equipment. It will be important to maintain a clean and safe worksite and ensure the upkeep of maintenance tools and equipment. You must coordinate activities associated with troubleshooting and repairing maintenance equipment.

Serious contenders will have an N2 Technical Certificate (internal employees)/N3 Technical Certificate (external candidates) with a recognised Electrical Trade Test and a minimum of 2 years' experience in maintenance. Maintenance and faultfinding on Allen Bradley VSDs and PLCs as well as medium-voltage switchgear will be advantageous, as will computer literacy in MS Office and 1SAP. A valid Code 08 driver's licence is essential.

Please apply online by entering the preferred position reference number at our website: <http://careers.south32.net>

Applications close 20 January 2018 at 17:00.

South32 has an overriding commitment to safety and environmental responsibility.
