## **South Africa Load-out Station Electrician Mamatwan Mine, Northern Cape (Ref. 781054)**

We need you to inspect, replace and maintain electrical equipment at the Load-out Station in a safe and efficient manner. Specifically, you will maintain, repair and do faultfinding on three-phase electrical circuits as well as low- and medium-voltage networks and be responsible for electrical installations. You will also identify, inspect and clean electrical machines, test and inspect three-phase industrial/commercial and single-phase domestic installations, as well as interpret and understand circuit diagrams and analyse and solve electrical problems. In addition, we'll require you to repair, replace and adjust limits and proximities on automatic slide gates, dribble chutes and chutes, adjust train truck profiles and identify problems (such as block chutes and faulty equipment and repair) and operate the load out station when required. You will also compile shift reports to the supervisor. This role will see you work shifts.

Serious contenders will have a Grade 12 with Mathematics and Science or N3 Electrical Technical certificate or N2 Electrical Technical Certificate (internal employees), with a valid Electrician Trade Test and a minimum of 3 years' experience as a qualified Electrician in mining. A valid Code 08 driver's licence is essential, as is sound knowledge of VSDs and Soft Starters. Experience in an ore preparation, Sinter or DMS plant, a High Voltage Switching Certificate and knowledge of hydraulic systems will be advantageous, as will a Wireman's Licence and working knowledge of SAP.

**Please apply online by entering the preferred position reference number on our website: <http://careers.south32.net>**

**Applications close 30 April 2018 at 17:00.**

South32 has an overriding commitment to safety and environmental responsibility.
